## PROFESSIONAL SUMMARY

BCA student at CIMAGE Group of Institutions with a strong base in Data Structures, OOP and Software Engineering, building practical **AI and Computer Vision** applications. Built a real-time **hand-gesture vehicle controller** (OpenCV, MediaPipe) and an **LLM-powered healthcare chatbot** (Mistral AI, Streamlit). **1st place** at the Prompt2Pixel GenAI Competition (2026) and a regional Yuva Awardee. Seeking a **Software Development / AI Engineering internship** to ship clean, scalable code and solve real problems.

## TECHNICAL SKILLS

| | |
|---|---|
| **Languages** | Python, Java, C, HTML5, CSS |
| **AI & Computer Vision** | OpenCV, MediaPipe, Prompt Engineering, LLM API Integration (Mistral AI, Anthropic Bedrock), HCI |
| **Web & Frameworks** | Streamlit, Node.js, REST APIs |
| **Tools & Platforms** | Git, GitHub, Linux, VirtualBox, VS Code, Google Cloud Platform (Vertex AI basics) |
| **CS Fundamentals** | Data Structures & Algorithms, OOP, Operating Systems, Computer Networks, DBMS |

## PROJECTS

**Real-Time Gesture-Controlled Vehicle Simulator** — Python | OpenCV | MediaPipe

- Built an end-to-end computer vision system that turns live hand gestures into steering input, with **no physical controller** needed.
- Implemented real-time hand-landmark detection and vector geometry to compute steering angles with **sub-second latency**.
- Mapped gestures to virtual key events to drive desktop simulators, and tuned the pipeline for **stable frame rates**.

**Dr. MediScan – AI Medical Assistant & Diagnostic Chatbot** — Python | Mistral AI API | Streamlit

- Developed a conversational assistant that interprets user symptoms and returns **structured healthcare information** using context-aware prompting.
- Built API middleware for **error recovery, input validation and secure session management**.
- Designed a clean, responsive Streamlit interface for low-latency, intuitive interaction.

## EDUCATION

**Bachelor of Computer Applications (BCA)** — 01/2025 – Present

*CIMAGE Group of Institutions (Affiliated with Patliputra University), Patna, Bihar*

- **Coursework:** Data Structures & Algorithms, C Programming, Digital Electronics, Computer Fundamentals, Web Development.
- Consistently top-tier scores in Computer Science fundamentals and Data Structures.

## HONORS & AWARDS

**1st Position – Prompt2Pixel GenAI Competition** — 2026

- Ranked 1st among competing student developer teams for building and presenting high-accuracy generative prompts and workflows.

**Yuva Awardee – Dainik Jagran** — 02/2026

- Regional honor for youth initiative, leadership and community contribution.

**Academic Excellence Recognition – College Director**

- Recognized for outstanding semester performance in core technical subjects.

## LEADERSHIP & VOLUNTEERING

**Student Coordinator & Delegate – Bihar Education Conclave cum Startup Summit** — 2026

- Managed logistics, speaker coordination and delegate workflows for a regional summit of founders, educators and policymakers; facilitated panel track operations.

**Team Lead – College Technical Initiatives**

- Mentored and led a team of **12 students** running high-traffic operations at campus technical events.

**Student Volunteer – Swachhata Hi Seva Civic Drive (SNETI NGO)** — 2026

- Led waste-management and urban plantation drives and public environmental awareness sessions in Patna.

## CERTIFICATIONS & TRAINING

**GenAI Powered Data Analytics Simulation** – Tata Group (via Forage) — 10/2026

**Training in AI Robotics & Systems** – Spoken Tutorial / Skill Acceleration Lab — 2026

**Technical Spoken English & LibreOffice Suite** – IIT Bombay Spoken Tutorial Project — 2026
